I'M A HUGGER - BUNNY

Put together the newest member of Team I'm A Hugger!

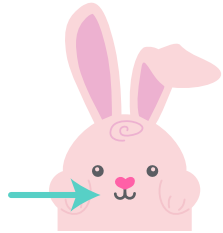

1 Die cut your bunny pieces, and start assembly by gluing the ear backers to the backside of the body.

BUNNY PIECES

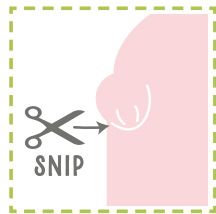

2 Create the face. Use a clear stamp to add the forehead accent and eyes and mouth. You can finish with a stamped or die cut bunny nose.

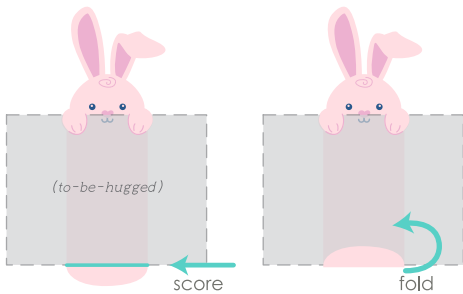

For perfect peeking, line the mouth up between the paws

3 Snip the tiny paper connection between the body and the cut-in paw line. Then, slide your "to-be-hugged" under the paws.

4 Score the body in a straight line along the the bottom edge of the "to-be-hugged", and fold the body upwards to wrap.

5 Assemble the lucky rabbit's feet and glue them and the bunny tail onto the folded cutie-patootie.

Glue the feet and tail along the bottom edge for best effect.

MAKE A HUGGER STAND

Cut a 1" x 5.5" strip. Score in the middle and .75" from each end. Fold into a triangle and glue the two end flaps together. Glue triangular stand to the back of your hugger.
